**Included**

## Intelligent Service Pricing

### Conference calls

Local audio mixing ensures low-latency conferences around the globe. Programmable call control for hosts and participants at massive scale, with advanced contact center Agent features. [Learn more](#)

Starting at  
**\$0.0018** /  
participant per min

### Branded calling

Increase trust and improve call answer rates when customers instantly recognize your business name on their mobile phone screens. Volume discounts are available. [Contact sales](#) to learn more.

**\$0.12** / call

### Call recording

Securely record, store, transcribe, and retrieve voice calls in the cloud. [Learn more.](#)

Recording  
**\$0.0025** / min

Storage  
**\$0.0005** / min  
per mo

Transcription  
**\$0.0500** /  
min

### Answering machine detection

Save agents time by determining if an outbound call reached a human, answering machine, or fax. 95%+ accuracy and low connection latency set your agents up for success. [Learn more](#)

**\$0.0075** / call

### Voice insights advanced features

Detailed metrics to understand and improve call quality. Gain valuable insights into your calling patterns that drive improved business outcomes. Volume discounts are available. [Learn more.](#)

Pay-as-you-go  
**\$0.0024** / min

### Emergency calling

Associate emergency addresses with your phone numbers. When a 911 call is placed from a phone number without a registered emergency address, Twilio will charge a \$75 fee per 911 call.

**\$0.75** / mo per  
number

### Conversational Intelligence - Transcription

Convert voice calls into highly accurate transcripts by importing Twilio or third-party recordings. [Learn more](#)

Batch Transcription  
**\$0.024** / min

Streaming (Real-  
Time)  
Transcription  
**\$0.027** / min

## Intelligent Service Pricing

### Conversational Intelligence - Language Operator

Analyze call transcripts and identify and extract actionable data insights with AI-powered language operators. [Learn more](#)

Standard

**\$0.0040** / min

Text Analysis

**\$0.0035** / min

### Conversational Intelligence - Generative Custom Operators

Leverage our most flexible Language Operator yet. Provide freeform instructions to a Generative AI model for a wide range of language understanding tasks. [Learn more](#)

Input characters

**\$0.002** / 1k

characters

Output characters

**\$0.018** / 1k

characters

### Virtual Agent with Google Dialogflow CX

Virtual Agent integration with Google DialogFlow CX for building AI-based Conversational IVRs.

**\$0.085** / min

### Virtual Agent Generative AI Features

Use of GenAI features — playbooks, fallback, generators, data store agents, etc. — as supported by Google Dialogflow.

**\$0.00283** / sec

### Virtual Agent Custom Prompt Voices

Use of Custom Voices (Customer supplied and uploaded) for text-to-speech reading of prompts in Dialogflow. [Learn more](#)

**\$0.032** / min

### Pay Connectors

Use Twilio Voice to process transactions over your preferred payment processor in a PCI-compliant manner. Volume discounts are available. [Learn more](#).

### Media Streams

Send a copy of a call's audio to a partner stream connector or to a secure websocket for real-processing. [Learn more](#)

**\$0.0040** / min

### SIPREC

Use Twilio as a Session Recording Client and send a copy of a call's audio to either your own Session Recording Server or a pre-configured partner connector. [Learn more](#)

**\$0.0040** / min

### ConversationRelay

Integrate voice AI into your tech stack without the complexity. Focus on your AI while we handle the voice infrastructure. [Learn more](#).

**\$0.07** / min

### Gather Speech Recognition

Updated speech models from Google and Deepgram. Customer may select provider/model or allow Twilio to pick (default). [Learn more](#)

Twilio Picks Provider  
(Default)

**\$0.018** / use

Deepgram Nova or  
Google v2
